

**RECOMMENDED LANGUAGE FOR
MOTION FOR DISCOVERY OF COMPUTER EVIDENCE**

(When dealing with digital evidence from a computer or other digital media that has been preserved and examined by law enforcement, industry standards recommend that a forensic report and copy of the original evidence file and proprietary file viewer be requested.)

1. All reports including the search warrant and reports detailing the seizure and the chain of custody of the electronic evidence.
2. The forensic examiners report detailing tools and procedures used in the forensic process.
3. Forensic report in PDF format.
4. A copy of the forensic image in the native (original) format of the forensic device used to acquire the device image. In the event of contraband, Defense should be granted full access to the original evidence or a forensic clone for independent investigation.
5. The proprietary file viewer for the specific forensic tool used to create the image.
